Projects

E-commerce Web Clone

Built an Amazon-inspired e-commerce web application using Vanilla JavaScript. Features included dynamic product listing, shopping cart, and order summary. Designed and implemented core functionality without frameworks, focusing on DOM manipulation, responsive design, and asynchronous JavaScript for real-time updates. Leveraged local storage for cart management and enhanced user experience.

Small Games Projects

Developed a series of interactive games using Vanilla JavaScript, showcasing creativity and problem-solving skills. Projects included [name a few games, e.g., Rock-Paper-Scissor, Guess the Number, Calculator, and many more.], featuring dynamic gameplay, custom animations, and user-friendly interfaces.

Strength

- Attention to detail and excellent organisational skills
- Strong ability to follow instructions and consistently deliver quality results.
- Ability to work efficiently in a fast-paced environment
