📍 GWALIOR, INDIA

## PROFESSIONAL SUMMARY

Motivated full-stack web developer with a background in hospitality and a solid foundation in both front-end and back-end development. Proficient in HTML, CSS, JavaScript, React.js, and Node.js, hands-on experience in building responsive, user-centric web applications. Skilled in collaborating in fast-paced environments, solving complex problems, and writing clean, maintainable code.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, Python

**Frameworks & Runtime:** React.js, Node.js, Express.js, Strapi

**Libraries & Tools:** Redux Toolkit, Tailwind CSS, Bootstrap, Axios, React Router

**Databases & Backend Services:** MongoDB, Cloudinary

**Version Control & Deployment:** Git, GitHub, GitLab, Netlify, SSH, PM2

**Other:** RESTful APIs, Responsive Web Design, DOM Manipulation, Component-Based Architecture, Debugging & Error Resolution

## WORK EXPERIENCE

**Club Mahindra Assonora, Goa | Intern |Dec 22 - Apr 23**

- Supported front desk operations using SAF[PMS], managing check-in/out for 100+ guests daily during peak season.
- Performed booking-related tasks with 95% accuracy, reducing check-in delays during high-traffic periods.
- Successfully completed the internship with formal certification for outstanding contribution.

**KartBuddy Logistics LLP, Mumbai | Intern |May 25 - Present**

- Deployed React.js apps to production using **SSH** and **PM2**, improving deployment efficiency by 40%.
- Built and customized 10+ **Strapi** components, reducing backend development time by 40%.
- Resolved 25+ bugs across frontend/backend, increasing system performance by 20%.
- Collaborated on **GitHub** using branches, pull requests, and code reviews in 100% of sprints.
- Mentored 4+ interns, boosting debugging and issue resolution speed by 35%.
- Gained hands-on experience in production environments, backend development, and agile collaboration.

## PROJECTS

**Amazon E-commerce Clone:** Live Demo
- Developed an e-commerce web app using HTML, CSS, and Vanilla JavaScript.
- Implemented dynamic product listings, cart functionality, and order summaries.
- Utilized local storage and asynchronous JavaScript to manage cart state and support real-time updates.

**Personal Portfolio Website:** Live Demo
- Designed a responsive and visually engaging portfolio site to showcase personal projects.
- Showcased expertise in interactive UI/UX design and modern front-end development.
- Built using HTML, CSS, and JavaScript with a mobile-first approach.

**Restaurant Website**
- Built a modern and responsive website for a fictional restaurant.
- Features included interactive menus, reservation system, and contact forms.
- Focused on clean layout, accessibility, and optimized mobile browsing.

**CRUD Registration App**
- **Tech stack:** React + Vite, Tailwind CSS, Axios, React Router, MockAPI
- Created a responsive registration form with full CRUD operations.
- Implemented API integration and navigation using React Router.
